

07 OCT 2020

ANNOUNCEMENT

In light of the declaration of the State of Public Health Emergency throughout the Philippines due to Corona Virus Disease 2019 (COVID-19), all are directed to observe and comply with the health preventive measures such as social distancing and restriction on mass gatherings.

Related to this, the Department of Health issued a DOH Memorandum on the temporary suspension of the face to face and walk-in transactions and activities related to learning and development.

In view thereof and in compliance with the said directive and health protocols, the FDA would like to inform its external stakeholders that all face to face training/seminar programs offered by the FDA Academy are temporarily suspended until further notice. However, in order to provide training programs amidst the current situation, the FDA Academy is preparing for the conduct of its trainings/seminars through internet based video-conferencing platforms for this year. A separate Circular will be issued on this matter for further details.

For your information and guidance.

ROLANDO ENRIQUE D. DOMINGO, MD

Director-General
