BUREAU CIRCULAR

No. 6, s. 2001

TO : ALL MILK COMPANIES

SUBJECT : AFLATOXIN M1 IN MILK

In the 33rd CCFAC Meeting, there is a move to reduce the maximum level of Aflatoxin M1 in milk from 0.5 to .05 ug/kg. In view of this, you are requested to record periodically the level of Aflatoxin M1 in imported milk. This is to assess impact of the change in local situation.

Your cooperation will be appreciated.

WILLIAM D. TORRES, Ph.D.
Director IV
