

14 April 2014

FDA CIRCULAR
No. **2014-012**

TO: All Establishments Seeking to, or Currently Engaged in the Promotion and Advertisements of Health Products in the Philippines

FROM: 
KENNETH Y. HARTIGAN-GO, MD
Director
Food and Drug Administration

SUBJECT: **Requiring Proof of Courier Service Payment for Promotion and Advertisement Permits**

The Food and Drug Administration in its drive to improve and streamline delivery of services is engaging the services of private couriers to deliver authorizations to applicants.

Effective 02 June 2014, all applications for promotion and advertisement permits are required to provide proof of courier service payment during submission of requirements.

The terms of Memorandum Circular No. 2014-006 prescribing optional courier service is thus amended only for promotions and advertisements. Optional courier service for other authorization(s) still applies until amended by later regulation.
