

SPECIAL BIDS AND AWARDS COMMITTEE (SBAC)

SUPPLEMENTAL BID BULLETIN For FDA-SBAC-ITB No. 2021-006-ICTMD

SUBSCRIPTION OF CLOUD BASED IT INFRASTRUCTURE MONITORING PLATFORM FOR ONE (1) YEAR

26 October 2021

In response to the issues/ concerns raised during the Pre-Bid Conference held on 20 October 2021 for the above-mentioned ITB, hereunder are the amendments, clarifications and recommendations.

Refer to the table given below:

A. Section I. Invitation to Bid

<p>No.6. Bids must be duly received by the Special BAC Secretariat through online submission at the email indicated: sbac_it@fda.gov.ph</p>	<p>Important Reminder:</p> <p>The SBAC email address sbac_it@fda.gov.ph has an auto generated acknowledgement receipt feature.</p> <p>Therefore, an electronic submission of Bid Proposals is considered successful when a Prospective Bidder have received an auto-generated acknowledgement receipt from the FDA-SBAC. If no acknowledgment receipt was received within one (1) hour after the submission, the Prospective bidder is advice to repeat the submission. If still no acknowledgement is received, the Prospective bidder should notify the FDA-SBAC Secretariat through this number: 8857-1900 loc. Nos. 1081 or 8312 to validate their submission.</p> <p>Note that this acknowledgment receipt is the only acceptable proof of submission for purposes of compliance.</p>
--	---

	<p>Moreover, due to the large volume of electronic mails we receive during or near the date of the deadline, Prospective Bidder(s) are highly encouraged to submit in advance and avoid last minute submission to ensure the timely receipt of the auto-generated acknowledgment receipt. The large volume of electronic mails can result in the delayed transmission of electronic mails from network to servers which may result in the delayed receipt or non-receipt of the autogenerated acknowledgment receipt.</p> <p>Lastly, Prospective Bidder(s) submitting their bid proposals through the above-given email address is/are required to acknowledge the receipt of this message.</p>
