FDA ADVISORY
No. **2013-016**

SUBJECT: Implementation of Fee Restructuring

Please be advised that the fee restructuring will be implemented at a later date this year. After conducting four (4) public hearings, the Food and Drug Administration (FDA) is carefully studying the details of the Administrative Order that will enable the agency to cover its operations as it fulfils its mandate according to Republic Acts no. 9502 and 9711. FDA assures its stakeholders that publication of the administrative order in the FDA website (www.fda.gov.ph) and in local newspapers will be done prior to the phased implementation of the fee restructuring.
