HERBAL PRODUCTS

B-COMPLEX

The Miracle Food Substitute

B-Complex "the Miracle Food Substitute" is another amazing invention of Dok Ed that combines all eight(8) B vitamin types from the selected varieties of cereals scientifically processed to maximize natural nutrients for health restoration especially for different kinds of diseases like diabetes, colon problems, insomnia and thyroid disorders.

Unlike the popularized benefits of other commercial food substitutes/supplements which trigger sickness and chemical side effects, B-complex is considered as the best natural substitute for meals without chemical hazard to man's health.

Ingredients:
Skinless Soy, Whole Grains Soy, Wheat, Oats, and Sunflower Seeds.

Recommended Use:
Stir 1-2 tablespoons per glass of hot water. Preferably mix with wild honey and molasses as sweetener.

OMEGA 356

With Polysaccharides Plus Polypeptides

INGREDIETS: Chia Seeds, Whole Wheat, Whole Oats, Sunflower Seed, Spirulina, Fulvic Mineral Powder.

SUGGESTED USE: One(1) sachet every (2) hours daily for chronically ill or for individuals who feel they need more of it. Mix serving in 4 oz. of warm coffee,, tea, liquid or food.

ALL NATURAL: No sugar, no chemical, no artificial colors & flavors and no side effects.

WILD HONEY & MOLASSES

Chemically sweetened foods with very high sugar content are the fundamental cause of diabetes and other forms of diseases like cancer. Honey, however, has unique properties that provide health benefits beyond its delicious taste and sweetening capability. The oligosaccharides in honey had been suggested to promote the growth of beneficial bifid bacteria in the colon. This colonization may be useful for diarrhea or for an extended use of antibiotics. Honey is also rich in health-promoting antioxidants such as pinocembrin and pinobanksin.

On the other hand, Molasses, is a thick viscous syrup. It is the dark liquid by-product in the process of refining sugar cane into table sugar. It is made from the third boiling of the sugar syrup and is therefore a concentrated by product left over after the sugar's sucrose has been crystallized.

Molasses contains Manganese, Copper, Iron, Calcium, Potassium, Magnesium, Vitamin B6 and Selenium.

The public is hereby warned that the food products and food supplements are not registered with the FDA. Pursuant to Republic Act No. 9711, otherwise known as the "Food and Drug Administration Act of 2009", the manufacture, importation, exportation, sale, offering for sale, distribution, transfer, non-consumer use, promotion, advertising or sponsorship of health products without the proper authorization from FDA is prohibited.

Likewise, **all claims in the advertisements are false, deceptive, and misleading.** As per a Administrative Order 2010-0008, no person shall advertise, promote, or use in any sponsorship any food/dietary supplements unless such product is duly registered and approved by the Food and Drug Administration.

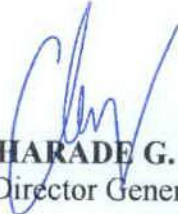

Accordingly, since unregistered food products and food supplements have not gone through evaluation and testing process of the FDA, the agency cannot guarantee their quality and safety. The consumption of such violative products may pose potential health hazards to the consuming public. Food products including food supplements should not bear any

misleading, deceptive, and false claims in their labels and/or any promotional materials that will provide erroneous impression on products' character or identity.

In light of the above, the public is advised not to purchase the aforementioned violative product. Moreover, the public is advised to be vigilant against food products that might not be duly registered with FDA. Always check if a food product has been registered with FDA before purchasing it by making use of the embedded *Search* feature of the FDA website accessible at www.fda.gov.ph.

For more information and inquiries, please e-mail us at info@fda.gov.ph. To report continuous sale or distribution of the above unregistered food supplement, utilize our online reporting facility, **eReport**, at www.fda.gov.ph/ereport, or e-mail us via report@fda.gov.ph, or call us at the Center for Food Regulation and Research (CFRR) hotline (02) 857-1900 loc. 8115 and 8112.

Dissemination of the information to all concerned is requested.
