(infront of Mcdo & beside TSU)

**FAST FACTS**

**What is Glutathione?**  
Is a small protein composed of 3 amino acids called cysteine, glutamic acid and glycine, produced normally by the body. However, poor diet, pollution, toxins, medications, stress, trauma, aging, infections and radiation all deplete your glutathione.

**What is Glutathione often referred to?**  
"MASTER ANTI-OXIDANT OF THE BODY" - a small molecule made up of linked amino acids and anti-oxidant naturally produced in the body. It has been widely heralded for its importance for good health and long life.

**Why is Glutathione associated with skin whitening?**  
Animal tests showed that a high cysteine level (the main component of glutathione) lowers melanin production. Melanin is the pigment that provides color to the skin. Glutathione in increased dose posts a remarkable good "side effect" such as SKIN WHITENING.

**Glutathione for the Skin**

- Whitens the skin
- Dark spot remover
- Prevent/remove pimples and pimple marks
- Anti-aging and anti-wrinkles
- Makes your skin smooth, fresh and radiant
- Enhance healing of wounds- Nourishes skin

**Glutathione as Master Anti-Oxidant**

- Improves immune system
- Helps in preventing cancer especially Liver Cancer
- Protects our body free radicals & reactive oxygen molecules.
- Is required in detoxifying nicotine
- Helps our Liver in detoxifying our body
- Plays important role in cancer prevention & treatment
- Appears to protect against the dangers of heart diseases, premature aging and chronic illness.
- Increases sperm count for men with low sperm counts.

**What is Tatio Active DX?**  
Is the latest, enhanced formulation for glutathione-based product. As such, you get the best results and benefits of glutathione.

**What makes Tatio Active DX different from other glutathione pills in the market today?**  
Unlike other brands, TATIO ACTIVE DX is available in 1800 & 1850mg and comes in soft gel. A soft gel formulation has 5 times more absorption rate compared to capsules or caplet. It takes up to 5 minutes for the soft gels to be absorbed by the body. It is almost as good as the injectable in terms of absorption.

**How many softgel should I take daily?**  
1-2 per day, depending on the laboratory and blood chemistry of the patient.

**Should I take Tatio Active DX with or without meals?**  
Effectively with meals.

**When will I see the results of taking Tatio Active DX?**  
Initial results can be seen in 7 days.

**Can Tatio Active DX be taken by pregnant women?**  
Not advised for pregnant women.

**Can Tatio Active DX be taken with other medicines?**  
Except when taking anti-biotics.

**How are customers ensured of safety and efficacy of Tatio Active DX?**  
The manufacture and distribution of TATIO ACTIVE DX goes through rigid study and research. To ensure safety and efficacy, TATIO ACTIVE DX is substantiated with Laboratory Tests, Regulatory Compliance, Safety, Medical Safety Data Sheet (MSDS) and Case Studies. Each soft gel is imprinted individually to safeguard its quality and authenticity. Original Tatio Active DX is available through Tatiomax Pharma Corporation.

The public is hereby warned that the food supplements being advertised on the promotional materials are not registered with the FDA. Pursuant to Republic Act No. 9711, otherwise known as the "Food and Drug Administration Act of 2009", the manufacture, importation, exportation, sale, offering for sale, distribution, transfer, non-consumer use, promotion, advertising or sponsorship of health products without the proper authorization from FDA is prohibited.

Likewise, all claims in the advertisements are false, deceptive, and misleading. As per a Administrative Order 2010-0008, no person shall advertise, promote, or use in any sponsorship any food/dietary supplements unless such product is duly registered and approved by the Food and Drug Administration.

Accordingly, since unregistered food products and food supplements have not gone through evaluation and testing process of the FDA, the agency cannot guarantee their quality and safety. The consumption of such violative products may pose potential health hazards to the consuming public. Food products including food supplements should not bear any misleading, deceptive, and false claims in their labels and/or any promotional materials that will provide erroneous impression on products' character or identity.

In light of the above, the public is advised not to purchase the aforementioned violative product. Moreover, the public is advised to be vigilant against food products that might not be duly registered with FDA. Always check if a food product has been registered with FDA before purchasing it by making use of the embedded *Search* feature of the FDA website accessible at [www.fda.gov.ph](http://www.fda.gov.ph).

For more information and inquiries, please e-mail us at [info@fda.gov.ph](mailto:info@fda.gov.ph). To report continuous sale or distribution of the above unregistered food supplement, utilize our online reporting facility, **eReport**, at [www.fda.gov.ph/ereport](http://www.fda.gov.ph/ereport), or e-mail us via [report@fda.gov.ph](mailto:report@fda.gov.ph), or call us at the Center for Food Regulation and Research (CFRR) hotline (02) 857-1991 to 93.

Dissemination of the information to all concerned is requested.
