FDA CIRCULAR
No. 2022-005

23 JUN 2022

SUBJECT : Guidelines on Labeling Requirements of Drug Products under Maximum Retail Price (MRP)

I. BACKGROUND

It is the policy of the state to protect public health and, when the public interest or circumstances of extreme urgency so require, it shall adopt appropriate measures to promote and ensure access to affordable quality drugs and medicines for all. Chapter 3, Section 26(a) of Republic Act (RA) No. 9502 entitled "Universally Accessible Cheaper and Quality Medicines Act of 2008" stipulated that every drug product that is subject to price regulation shall reflect the retail price which shall not exceed the maximum retail price. To achieve the goal of this law to promote and ensure access to affordable quality drugs and medicines for all, Executive Order (EO) No. 821 s. 2009 entitled "Prescribing the Maximum Drug Retail Prices for Selected Drugs and Medicines that Addresses Diseases that Account for the Leading Causes of Morbidity and Mortality", was issued wherein 5 drug molecules or 27 drug formulas are subjected to price regulation. The list of drug product under Maximum Retail Price (MRP) was expanded into 86 drug molecules or 133 drug formulas under EO No. 104 s. 2020. On 07 December 2021, EO No. 155 s. 2021 was issued for further improving access to healthcare through the regulation of prices in the retail of drugs and medicines and repealing EO No. 821 s. 2009. The price regulation through MRP under EO No. 155 shall be imposed on the additional 34 drug molecules or 71 drug formulas.

Section VII, 6.c of Administrative Order (AO) No. 2020-0039 entitled "Guidelines in the Implementation of Maximum Retail Price (MRP) on Drugs and Medicines" states that the Food and Drug Administration (FDA) shall issue labeling requirement guidelines for MRP medicines. Relative to this, AO No. 2016-0008 entitled "Revised Rules and Regulations Governing the Generic Labeling Requirements of Drug Products for Human Use" stipulated the minimum mandatory requirements that shall be required to appear on the label of products under MRP.

To reduce the regulatory burden in the application and approval of the inclusion or update of the MRP statement to the labeling materials of drug products, this Circular is hereby issued.

II. OBJECTIVE

To provide a streamlined and rational application process for the change of labeling materials of drug products under MRP.

III. SCOPE

This shall apply to all licensed drug manufacturers, traders, and distributors of drugs products under MRP.

IV. GUIDELINES

A. The following MRP statement shall be printed on the primary and secondary packaging label of the drug product on a red strip (red background or red font) following Section VI.B.7 of AO No. 2016-0008:

UNDER DRUG PRICE REGULATION
RETAIL PRICE NOT TO EXCEED *[PRICE]*

OR

UNDER DRUG PRICE REGULATION
RETAIL PRICE NOT TO EXCEED *[PRICE]*

OR

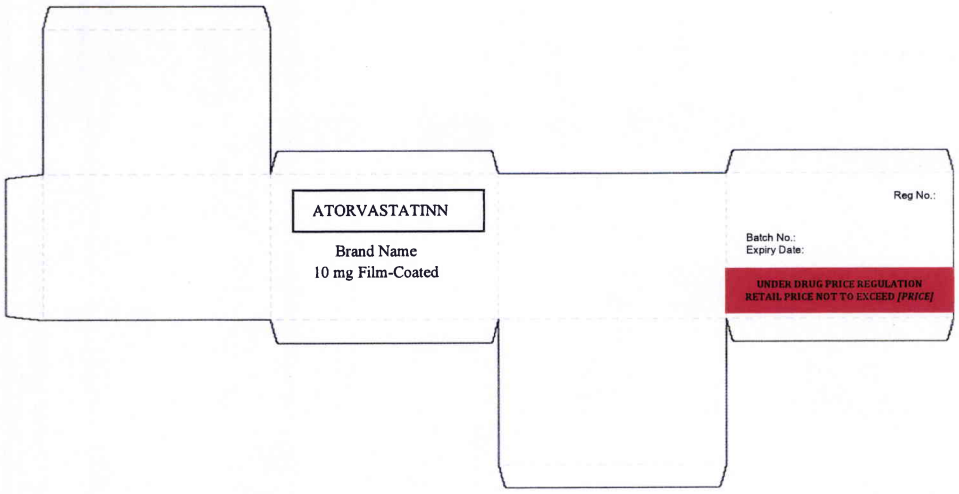
UNDER DRUG PRICE REGULATION
RETAIL PRICE NOT TO EXCEED *[PRICE]*

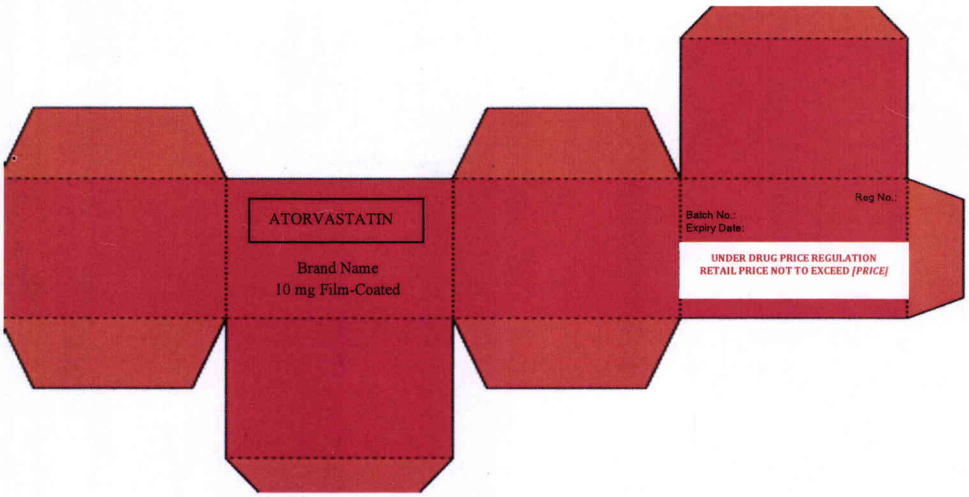
OR

UNDER DRUG PRICE REGULATION
RETAIL PRICE NOT TO EXCEED *[PRICE]*

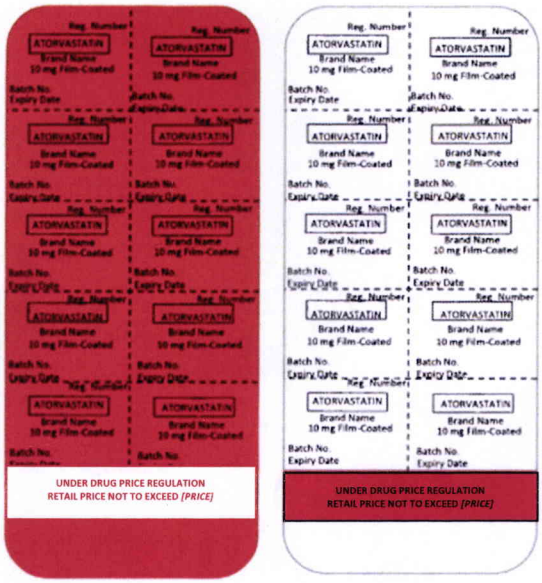
Example:

SECONDARY PACKAGING





PRIMARY PACKAGING



For primary label such as blister pack/foil strip, MRP statement shall be printed on every standard blister pack/foil strip. This shall exclude drug products in small containers as defined under Section IV (42) of AO No. 2016-0008.

B. Existing registered drug products shall submit a letter with the facsimile of the label for the change or inclusion of the price or MRP statement.

C. Drug products for registration (New Drug under Monitored Release, Initial, and Drug Product for Emergency Use) shall bear the MRP statement in the labels upon submission of the application.

D. For drug products granted with Generic Labelling Exemptions (GLE), the MRP statement can be attached as a sticker on the secondary packaging of the drug product. Stickering shall be **only** allowed for drug products under GLE.

E. For drug products that have been delisted from the MRP list and those that may be delisted in succeeding EOs, the labeling material shall revert to regular product
