16 February 2023

## NOTICE TO THE PUBLIC

Nelpa Lifesciences Inc. is announcing a product recall with Class II category of Cloxacillin (as Sodium) 125mg/5mL Powder for Oral Suspension "Cloxasaph-125" until retail level with the following details of the affected batch/lot number:

Registration No.	Product Description	Batch / Lot No.	Exp Date
DRP - 8295	Cloxacillin (as Sodium) 125mg/5mL Powder for Oral Suspension "Cloxasaph-125" 60mL	NPCSDS125-08	May 2023

Cloxacillin is used in the treatment of infections due to staphylococci including respiratory tract, ENT, skin & soft tissue infections. It is also used for the treatment of minor skin, soft tissue, respiratory tract, bone and joint and urinary tract infections due to penicillinase-producing staphylococci.

Cloxacillin is limited to the infections due to staphylococci Melhi S, particularly in the following infections: Skin and soft tissue infections, bone and joint infections, urinary and genitourinary infections, respiratory and ENT infections, neuro-meningeal infections, septicemic infections including endocarditis.

The above-mentioned product is subjected for recall based on the out-of- specification test results obtained from the analysis of the affected batch/lot number. Nelpa Lifesciences Inc. is requesting concerned establishments (distributors, sub-distributors, pharmacies/drugstores) to immediately discontinue further distribution, sale and use of the said batch number. Consumers are also advised not to purchase or use the same.

You may contact Nelpa Lifesciences, Inc. at (02) 7340-7018 or send an email to [coo.chiefrph.nelpalifesciences@gmail.com](mailto:coo.chiefrph.nelpalifesciences@gmail.com) or [rao.nelpalifesciences.pv@gmail.com](mailto:rao.nelpalifesciences.pv@gmail.com) for any question/s regarding this recall.

For suspected adverse drug reaction, report to the FDA: [www.fda.gov.ph](http://www.fda.gov.ph) or through <https://primaryreporting.who-umc.org/Reporting/Reporter?OrganizationID=PH>.
