

**FDA ADVISORY**  
No. 2024-0498

06 MAR 2024

**TO : ALL CONCERNED STAKEHOLDERS**  
**SUBJECT : Delisting of COVID-19 Medicines and Devices from the List of VAT-Exempt Health Products**

Republic Act (RA) No. 11534 known as the "Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act" provided Value-Added Tax (VAT) Exemption to certain health products including, Drugs for Hypertension, Cancer, Mental Illnesses, Tuberculosis, Kidney Diseases, Diabetes, High Cholesterol, and COVID-19 medicines and medical devices. Pursuant to this, the Food and Drug Administration (FDA) is directed to identify and transmit the VAT-Exempt Health Products to other implementing agencies such as the Bureau of Internal Revenue (BIR), Bureau of Customs and Department of Trade and Industry.

It is stated in Section 12 of RA No. 11534 that VAT-Exemption of Medical Device, Drugs and Vaccine prescribed and directly used for COVID-19 treatment shall be valid until 31 December 2023. Relative thereto, the BIR has issued Revenue Memorandum Circular No. 7-2024, informing the stakeholders and all concerned that the said products shall no longer be VAT-Exempt, effective 01 January 2024.

In line with this, the following are hereby delisted from the List of VAT-Exempt Health Products in accordance with RMC No. 7-2024, appended herein. Further, the FDA Verification Portal shall be subsequently updated to reflect the said delisting.
